

STATEMENT OF PURPOSE

I **Anas Hakkim**, introduce myself as an applicant for Masters at UK. Here, I have attempted to put a little insight into my academics and why I would want to pursue my education at **University of West London** and specialize in **Msc Project management**.

MY INSPIRATION

My father, my role model, was my greatest inspiration in opting my topic as mechanical engineering for my undergraduate studies. He had a keen interest in machines which inspired me a lot. Moreover, I was greatly influenced by the various machines even from my childhood. I wondered how these machines can replace human beings. Also, my favorite subjects are physics and Fluid Mechanics. Hence, I decided to become a mechanical engineer in future and put all my efforts towards it. And after completing my bachelors in mechanical engineering I was planning to do masters in the same stream at that time one of my close friend who is already in UK shed a light on UK to me. He is doing his masters in Mechanical Engineering (Professional) and He shared the experience he gained from UK and also he give me an insight on UK Universities and how the class rooms and how the lectures are towards the students, and he explain to me how the diversity of students studying in each university and the exposure I will gain from studying in these culture. And this was my major motivation to apply to UK.

MSC IN PROJECT MANAGEMENT

"Vision to fruition" is my motto and I choose higher studies in Project Management at your esteemed university to satisfy my clients as well as my inner quest to excel in this field of management. Companies will initiate projects to increase revenue, minimize cost and increase economy which ensures the

demand for project managers constantly. I consider myself to be a person who is assertive, flexible and adaptable to change which would be a good add on to my aspiration of becoming a Project Manager.

I have pursued my bachelor's degree in mechanical engineering from India, my final year project was an eye opener for me as well my teaching faculties on the level of adaptability I had, to work under extreme pressure and bring good results out of it. As an athlete by practice I have immense determination in being unstoppable and not giving up to unfavorable conditions. These traits of mine lead me to think wisely on pursuing a career that makes use of my strengths.

With my Budgeting and Problem solving skills and with the will and interest for this field of management I foresee myself enjoying this lucrative and rewarding career where it would never be repetitive, boring or dull in being a Project Manager.

I believe that your esteemed university would enormously help me in upbringing my career and in bettering myself to achieve my goals. I am well aware of the fact that pursuing Masters in Project Management itself won't let me have a successful career but the dynamic culture and holistic development your university provides would definitely help me to attain my career dreams. I hope to be a part of your educational environment to have more urged and zeal to bring my career in dreams to reality.

I hope that the authorities find my backgrounds and statement of purpose to be satisfactory to the requirements of your university's Masters in Project Management Programme.

WHY UK

United Kingdom is a nation which represent innovation and management and is one of the most highly developed and efficient industrial nations. Besides, it is a country where engineering and technology is a way to achieve social progress and

where improving human life is very important. At this time, I came to understand that your university has a peerless reputation for emphasizing practical knowledge and innovation for its students and promotes an excellent industry – institution relationship. It is with such an aim and purpose that I look forward to seek an admission in this university. I will be immensely delighted to be enrolled as a Masters student in project management with Placement Year at your esteemed university. A Master's Degree from your university will give me the updated knowledge to be competent in this contemporary world by developing my skills and I believe that I have the necessary background and ability to benefit from the teaching being carried out in your university.

On my part I can assure you that I will prove to be a hardworking and persevering student, by applying myself intelligently towards fulfilling the course objectives. I would strive hard with all my resources and potential to keep the standards and reputation of your university. I believe that Master course in the University will equip me with the right knowledge and attitude to meet the emerging challenges and contribute towards project management and to create a more equitable and more innovative world.
